DETAILED ACTION

Response to Election

1. This action is in response to the provisional election mailed March 6, 2006.
Applicant amended claims 1, 11, 12, 14-16 and 23, cancelled claims 25-30 and added claims 31-36 rendering claims 1-24 and 31-36 pending. The provisional election rendering (Group I) Claims 1-24 elected and (Groups II and III) Claims 25-27 and Claims 28-30 non-elected is withdrawn. A new restriction requirement has been made.
2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-20 and 31-36, drawn to method of producing a first polymer on a substrate, classified in class 427, subclass 234.
 - II. Claims 21-24, drawn to a method of producing a die to a mounting substrate, classified in class 156, subclass 230.

Inventions I and II are directed to related processes. The related inventions are distinct if the inventions as claimed do not overlap in scope, i.e., are mutually exclusive; the inventions as claimed are not obvious variants; and the inventions as claimed are either not capable of use together or can have a materially different design, mode of operation, function, or effect. See MPEP § 806.05(j). In the instant case, forming an imprint and applying a die to a substrate results in a different effect to a substrate, where an imprint overlays the substrate and a die is partially absorbed by a substrate which results in the substrate(s) having a materially different design.

Art Unit: 1774

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Ann McCrackin on May 11, 2006, to request an oral election to the above restriction requirement, but did not result in an election being made.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
